

S361, S361-24

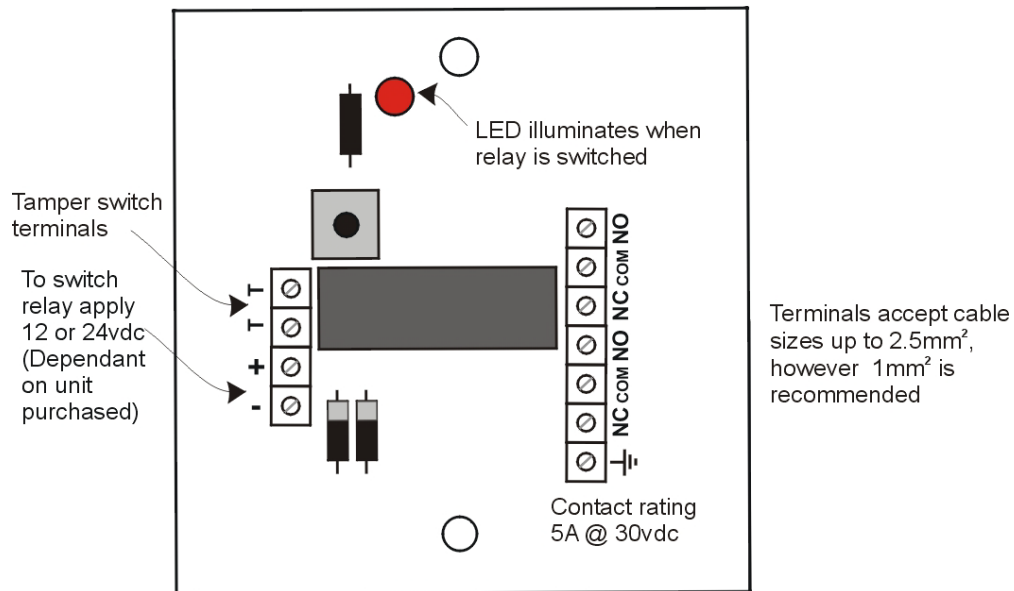

Designed to switch a load of up to 5A, controlled by a 12vdc or 24vdc input, **dependant on relay purchased**.

Relay Specifications:

- 12vdc or 24vdc @ 60mA
- Double-pole, change-over (DPCO) contacts rated for 5A @30vdc
- LED indicator lights when the relay is energised

Installation:

- Apply 12vdc or 24vdc (**dependant on relay purchased**) to + and - terminals to operate the relay
