

Dado Panic Strip Ordering Information

When the Dado Panic Strip is delivered to site it cannot be altered in length, therefore it is vitally important to ensure the sizes are correct when placing the order. Please measure from corner to corner and up to any windows, doors or other obstructions. To ensure the order is placed correctly please include a sketch of the area the Dado is required for, shown by Figure 1, a hand drawn sketch will suffice.

Figure 1

As well as the measurements, when placing an order colour preference is also required as is whether the strip is to be illuminated or not.

Table 2.1 below is a quick checklist of the requirements to place an order.

Order Checklist	
Measurements	
Sketch	
Dado Colour	
LED Illumination
